Your Plan Benefits: Nursing Facility Transition Assistance Benefit

If your child is living in a nursing home, there's a special program that can help bring them back home. Here's what it can do:

- The program can give up to \$75,000.00 to help make your home or car better for your child.
- This money is for fixing things that make it hard for your child to live at home.
- It can't be given directly as cash to families; it must be used for the changes needed.
- This help is available after you've used other covered services or benefits.

You should talk to your case manager if you think this can help. They can tell you more and help you figure out what to do next.
